

Gel BBQ fire starter (Fire Barbecue)

Bio formula -stable high quality

- bottle with a dispenser
- food friendly
- complies with EN 1860-3:2023-11

Color	Fragrance	pH	Kinetic viscosity
transparent	alcohol	6÷8	>20,5 mm²/s 40 °C

Barbecue lighting gel is an eco-friendly fire starter in the form of ethanol-based gel. Thanks to the use of a unique formula, lighting the barbecue will be easy and fast. The gel form is more efficient and definitely performs better than traditional fire starters. It perfectly coats the surface of the charcoal lighting it evenly. The gel fire starter does not spill if the bottle is knocked over, does not splatter when applied to the charcoal, and sustains the fire during kindling 3 times longer than traditional kindling. The product does not affect the taste or smell of prepared food. The gel fire starter is completely safe for use against food products and the environment.

Capacity	Pieces per carton	Pieces per pallet	Article no.	EAN code	QR code
1l	12	600	227392	5905033227392	
500 ml	12	1080	227385	5905033227385	

HEALTH AND SAFETY ADVICE:

Keep out of the reach of children. Avoid eye contamination. Rinse contaminated eyes immediately with plenty of water and seek medical advice. If swallowed, seek medical advice immediately - show packaging or label.
